DECORATE YOUR DÉCOLLETAGE

Sometimes more is more *BY BECKY STONE*

Now that the opulent excess of the #neckmess style has been trending for a few years, the urge to layer has reached even the more conservative necklace wearers. That's good news for retailers because you can't curate a layered look without multiple elements. Emphasize the desirability of particular pieces as complementary layers, and you just might make two sales instead of one.

HEAR YE, HEAR YE

The latest earring styles create buzz with their creativity and variety. *BY BECKY STONE*

Is there anything as arresting as the perfect earring? Marvelous in movement and prominently displayed, earrings are like the window treatment of the face: a gorgeous frame that makes the whole look. With curated ears, studs, cuffs, dangles, and asymmetrical styling, the possibilities are nearly endless.
